

#31 VOTE VAPSI HEALTH MINISTER

In the current system, the health minister publishes such laws in the Gazette which benefits the owners of Pharma & multinational companies. During the Covid pandemic, Health ministers recommended many unjust laws like compulsory lockdown, mandatory mask and forced vaccination. After the implementation of this law if the health minister implements a law that harms the Citizens, then the Voter of the state will be able to replace the Health minister anytime using VoteVapsi Passbook. Read the full draft of the proposed VoteVapsi Health Minister law from this link - Tinyurl.com/HealthMinister

The main points for the procedure of replacing Health Minister are given below :

- (1) If any citizen above 30 years of age wants to become Health Minister, he can present an affidavit in front of the collector. The Collector will declare him as the Health Minister candidate by taking a fee of ₹ 10,000 and will make the affidavit public on the Chief Minister's website.
- (2) With the publication of this law, every Voter shall get a VoteVapsi Passbook. If you are not satisfied with the work of the Health Minister and want to replace him, then you can register your Approval Yes or No (opinion like Votes) in Patwari's (Talati) office. You can register your Approval (yes or no) via SMS also. You can give your approval or cancel it any day, this approval is not your vote but rather a suggestion.
- (3) If a candidate for the post of health minister gets 25% approval of total voters from the state (not just those who registered their approvals), and if these approvals exceed 1% approvals of the incumbent Health Minister, then Chief Minister may or may not appoint the person who gets the most approval by removing the current Health Minister.
[Note: If the person getting the most approvals is not a member of the current Legislative Assembly / Legislative Council, then such a person can become an MLA by contesting the election of MLA in any election or by-election to be held in the next 6 months after becoming a Minister.]

For implementing this law, there is no need for any constitutional amendment or passing it by the parliament/assembly. The Prime Minister can implement it in all the states by directly publishing it in the Gazette. If the Chief Minister wants he can implement it in his state. After publishing this law, there will be a healthy competition among the MLAs to become Health Minister & they will start coming before Citizens with issues of public interest like ending Food adulteration, improving government hospitals and health care facilities, etc. so that the Citizens can give them approvals to become Health Minister. In this way, the alliance between the Multinational companies & the Health Minister will come to an end.
